# Carlo John C. Astudillo

Software Engineer

## CONTACT:

+63 960-266-6085

carloasto11@gmail.com

ast2u.github.io/CarloAstudillo-Portfolio-Website

## SKILLS:

- Java, Spring Framework, Python, C#, SQL
- Full-Stack & Web Development
- DevOps, Kubernetes & CI/CD
- Azure & Cloud Technologies
- WordPress & GovStack
- UI/UX & Video Editing
- Microsoft Office
- Communication, Teamwork & Problem Solving

## EDUCATION:

**NATIONAL UNIVERSITY - FAIRVIEW**
**Class of 2024**
BS Information Technology-Mobile & Internet Technology
Summa Cum Laude

**AMA COMPUTER COLLEGE**
**Class of 2020**
Senior High School

**NATIONAL COLLEGE OF BUSINESS AND ARTS**
**Class of 2018**
Junior High School

## AWARDS

- Summa Cum Laude - NU Fairview (2024)
- Best Mobile Application - NU Fairview IOT Symposium (2023)

## SUMMARY:

Software Engineer with experience in full-stack development, Kubernetes, CI/CD, DevOps, and cloud technologies. A fast learner who efficiently delivers tasks and adapts to new technologies, with a strong interest in advancing toward a DevOps Engineer role.

## EXPERIENCE:

### SOFTWARE ENGINEER I APRIL 2025 - PRESENT

**Exist Software Labs Inc.**

- Develop and enhance Java/Spring Boot microservices and backend applications across 4 projects, supporting approximately 16–30 services.
- Develop Python scripts and notebook-based jobs for data processing, automation, and operational tasks.
- Create and maintain CI/CD pipelines and configure Kubernetes resources, including Deployments, Pods, Ingress, Services, ConfigMaps, and StatefulSets.
- Support application deployments and containerized workloads across on-premises Kubernetes infrastructure and development and production environments.
- Troubleshoot production issues through application log analysis, root-cause investigation, and implementation of practical solutions.
- Perform database operations, including SQL queries, views, functions, and data transfers between environments.
- Deliver feature enhancements, bug fixes, and ongoing development support across multiple projects and services.
- Collaborate with clients and internal teams to investigate technical issues, coordinate resolutions, and ensure application requirements are met.
- Work with Microsoft Azure resources, Azure DevOps, and Azure Container Registry (ACR) to support development and deployment workflows.
- Assist in application maintenance and reliability by resolving technical issues and supporting stable application operations.

### CONTENT SERVICES INTERN | DEVOPS INTERN I 2023 - 2024

**GHD**

- Contributed to content migration using GovStack and WordPress.
- Gained DevOps experience with GitHub and Octopus Deploy.
- Assisted with deployments and troubleshooting.

## CERTIFICATIONS

- Microsoft Azure Fundamentals (2023)
- Fortinet Network Security Associate (NSE1, NSE2, & NSE3).
